ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: PROSTHESIS SET

(57) Abstract: Prosthesis set (1) for persons with amputated
limbs/stumps (10) where the prosthesis set consists of an anchoring
part (2) arranged internally in a remaining marrow bone (11) and
an external prosthesis (7). The anchoring part (2) has a bolt-like
design with a stem (3) and an expanded head (4) in one end,
wherein the stem (3) can be inserted and anchored in the remaining
marrow bone (11). The expanded head (4) forms a subcutaneous
termination of the marrow bone (11) and a local expansion (12)
at the end (10) of the amputated limb. The external prosthesis (7)
has an internal design (8) adapted to the local expansion.
